[STB Finance Docket No. 33322]**Georgetown Railroad Company, Acquisition and Operation Exemption, Missouri Pacific Railroad Company**

Georgetown Railroad Company (GRR), a Class III rail carrier, has filed a verified notice of exemption under 49 CFR 1150.41 to acquire and operate over approximately 8,338 feet of Missouri Pacific Railroad Company's (MP) line of railroad known as MP's ICC Track No. 11 in Georgetown, which extends from the terminus of GRR's line at milepost 0.0 (MP's former milepost 923.70) in Georgetown, to the east side of Church

Street in Georgetown, at milepost 0.54; and MP's undivided one-half interest in ICC Track No. 48, extending from milepost 0.54 south and west 5,470 feet to a point connecting with GRR's line from Kerr, in Williamson County, TX.¹ GRR is also acquiring MP's undivided one-half interest in the 5,478-foot ICC Track No. 47, and a 120-foot section of Track No. 11, in Georgetown, but as these will be used as side tracks, no exemption from 49 U.S.C. 10902 is necessary, due to the statutory exemption for acquisition and operation of side tracks in 49 U.S.C. 10906.

The exemption was effective on December 20, 1996. The parties indicate that consummation of the transaction will occur within 90 days after the effective date of the exemption.

If the verified notice contains false or misleading information, the exemption is void *ab initio*. Petitions to revoke the exemption under 49 U.S.C. 10502(d) may be filed at any time. The filing of a petition to revoke will not automatically stay the transaction.

An original and 10 copies of all pleadings, referring to STB Finance Docket No. 33322, must be filed with the Surface Transportation Board, Office of the Secretary, Case Control Branch, 1201 Constitution Avenue, N.W., Washington, DC 20423. [STB Finance Docket No. 33301]**Peter A. Gilbertson, H. Terry Hearst, Bruce A. Lieberman, R. Lawrence McCaffrey, Jr., and Harold F. Parmly—Continuance in Control Exemption—New York & Atlantic Railway Company**

Peter A. Gilbertson, H. Terry Hearst, Bruce A. Lieberman, R. Lawrence McCaffrey, Jr., and Harold F. Parmly (Applicants), noncarrier individuals, have filed a verified notice of exemption

to continue in control of New York & Atlantic Railway Company (NYAR), upon NYAR's becoming a Class III rail carrier.

The exemption was to become effective on December 12, 1996, and the transaction is expected to be consummated in the first quarter of 1997.

This transaction is related to STB Finance Docket No. 33300, *New York & Atlantic Railway Company—Operation Exemption—The Long Island Rail Road Company*, wherein NYAR seeks to acquire the freight operations of The Long Island Rail Road Company, including the right to operate the freight business on an exclusive basis.¹

In addition to the filings mentioned in footnote 1, the Board received a number of letters from local governments, officials, and community leaders concerned with the movement of municipal solid waste (MSW) through their communities. LIRR submitted to the Board's Section of Environmental Analysis (SEA) an Environmental Assessment (EA), which was prepared under the New York State Environmental Quality Review Act by ICF Kaiser Consulting Group, and summary information drawn from its EA. The information provided by LIRR states that MSW carloads are projected to increase regardless of whether LIRR continues to conduct freight operations or the operations are transferred to NYAR.

SEA has carefully reviewed the EA and summary information submitted by LIRR. SEA has determined that the information satisfies the Board's obligations under the National Environmental Policy Act and provides the sufficient analysis which would normally be prepared by SEA in railroad operations that exceed the Board's thresholds at 49 CFR 1105.7(e)(4)(5). Therefore, the EA and summary information will be adopted as the Board's own with a finding that there will be no significant environmental impacts associated with the proposed transaction.

Applicants own and control two existing Class III common carriers by

¹ On December 31, 1996, International Brotherhood of Locomotive Engineers (IBLE) filed a petition to reject the notices of exemption filed in STB Finance Docket Nos. 33300 and 33301 or to revoke the exemptions. The petition also supports a statement by Claire Shulman, President of the Borough of Queens (Shulman), filed December 11, 1996, which IBLE characterizes as a petition for rejection or revocation. By decision served on December 20, 1996, NYAR was granted an extension until January 10, 1997, for its reply to Shulman. The Shulman and IBLE filings, as well as any replies, will be considered by the entire Board in a separate decision.

¹ Blue Mountain Railroad, Inc. (BMR) currently operates over the line pursuant to a lease agreement that was the subject of a notice of exemption in Finance Docket No. 32193. The agreement between UP and the Port is subject to that lease agreement and BMR will continue to operate the line after this transaction is consummated under an assignment of the lease from UP to the Port.

¹ This transaction involves GRR's acquisition and operation of a 1.58-mile segment of track connecting GRR's line from Kerr to Georgetown, TX, with a 16.32-mile line from Georgetown to Granger, TX, that GRR purchased from MP. Abandonment of the line was authorized in *Missouri Pacific Railroad Company—Abandonment—in Williamson County, TX (Georgetown Branch)*, Docket No. AB-3 (Sub-No. 94) (ICC served Oct. 21, 1991).
